FUNDAMENTALS OF COSMETIC INJECTABLES

An introduction to Cosmetic Aesthetics, this course provides Registered Nurses, Nurse Practitioners and Doctors a thorough insight into the career of a Cosmetic Injector.

KICKSTART YOUR CAREER

The 'Fundamentals of Cosmetic Injectables' course, provides education on the principals of cosmetic injectable and techniques, to safely perform Basic Neurotoxin and HA Dermal Filler treatments. The theory component is completed at your own pace, prior to the four day, intense, hands-on training.

This course delivers excellence in cosmetic aesthetic knowledge of facial anatomy, Basic Neurotoxins and HA Dermal Filler treatments, clinical assessments, product understanding, injecting techniques and the confidence to provide informed client consultations.

Students learn and perform 'on-label' areas of Neurotoxins to the Frontalis (Forehead), Glabella (Frown) and Orbicularis Oculi (Crow's Feet) and HA Dermal Filler to the Cheeks and Lips.

All training is performed on real-live models, within our boutique, five-star, industry leading training facilities, under the guidance of our experienced Nurse Injector Facilitators, who are led and trained by the renowned Cosmetic Surgeon, Dr Terrence Scamp.

Upon successful completion of the course, you will display the knowledge and technical skills required, be equipped to safely deliver optimal aesthetic outcomes, undertake facial assessments and perform the three most common injectable treatments, with confidence.
